## Dawoodi Bohras convert school into Covid Care Centre

OUR STAFF REPORTER  
writes

As the city faces an overwhelming surge of COVID-19 cases along with a short age of oxygen and beds, the Dawoodi Bohra community in Indore is mobilising relief efforts to provide beds, oxygen and essential medical supplies to those affected by the virus.

The community's Saifee School in Chhatribagh has been converted into a Covid Care Centre to provide OPD and IPD facilities to patients.

Dr Mufaddal Rassiwalla, under whose supervision the Covid Care Centre operates, said, "We used to get daily 100-120 calls from people in Indore and neighbouring districts asking for help with bed and oxygen in hospitals. Many of them couldn't afford hospital services. That's when we decided to convert Saifee School into a Covid Care Centre to

help economically weaker sections of the community."

Initiated as part of the Dawoodi Bohra's global philanthropic effort, Project Rise, the centre is managed by volunteers from Saifee Ambulance, Burhani Diagnostic Centre and HSB Alumni group.

In addition to the Covid Care Centre, volunteers

10-15 oxygen cylinders in rotation, however, due to the growing impact of the second wave, we have scaled up our operations to include nearly 100 small and jumbo oxygen cylinders along with nebulisers, BIPAP machine, oxygen concentrators and other medical equipment," said Sakina Parthiwala, divisional commander of Saifee Ambulance in Indore.

"Since the last three months, our teams have been working round the clock to serve over 300 Covid-19 patients and provide vaccines to more than 4000 people," added Parthiwala.

Besides medical attention, the community also continues to serve cooked meals and dry rations under the banner of Project Rise which is also addressing issues and challenges faced in the fields of environment, water, education and healthcare.

"Last year we had about

Indore: Amid massive rise in Coronavirus cases and increasing need for oxygen and beds, Dawoodi Bohra community has lend a helping hand to the affected by converting its Saifee School into a temporary Covid-19 Care Centre.

The centre at the school run by the community in Chhatribagh area will provide out patient department (OPD) and in patient department (IPD) facilities to patients. Patients will be able to avail beds, oxygen and essential medical supplies too at the facility.

Dr Mufaddal Rassiwalla, under whose supervision the centre is being run, said: "After receiving over 100 calls each day regarding medical support especially from those who cannot afford medical expenses, the community

decided to convert Saifee School into Covid 19 Care Centre. We started off with 30 beds with oxygen and now we're expanding it with 20 more. The main aim of this facility is to assist economically weaker sections. This facility is open for all."

Initiated as part of Dawoodi Bohra's global philanthropic effort, Project Rise, the centre is managed

by volunteers from Saifee Ambulance, Burhani Diagnostic Centre and HSB Alumni group.

The community spokesperson Khuzema Fetiwalla said, "Dawoodi Bohra community has been providing oxygen and other medical supplies to locals since beginning of the pandemic. We have also begun with a campaign -- Rise to Vaccinate. Under this campaign, we are also encouraging people to get vaccinated. So far over 2500 eligible Bohra members have got the jab."

Last year, the community had about 10-15 oxygen cylinders in rotation. Amidst the second wave, the community has scaled up their operations to include nearly 100 small and jumbo oxygen cylinders along with nebulisers, BIPAP machine, oxygen concentrators and other medical equipments. Besides medical attention, the community has always been serving cooked meals and dry rations.
